

President of Board of Trade Gives An Explanation of Facts as Gathered Up

THE EDITOR:

Dear Sir:

For the last year and a half I have interested myself in getting information pertaining to the district in which we live so as to determine whether we should incorporate as a village, whether we should incorporate as a municipality, or whether the interests of the community would be served best by remaining as we are, a part of the Municipality of Surrey.

The facts that I have learned lead me to the conclusion that the most logical step for us is village incorporation. It is my purpose to publish the facts that I have gathered to assist others to form their opinions.

Following are a few of the facts.

1. Village incorporation has limited powers. It has no authority in the administration of justice. Polling is done under the direction of the Attorney General, and the cost of administration of justice is borne by the Provincial Government.

2. A village has no jurisdiction in the administration of schools. Residents of Mission, for instance, receive two tax notices. One for their ordinary taxes and one for school taxes. In other words, the school district, the school tax, and the school administration would remain unchanged.

3. A village can only borrow up to seventy-five per cent of its uncollected tax revenue for the current year. Exceptions are made for the purpose of buying or installing waterworks or sewage systems. For these purposes a bonded indebtedness may be incurred if approved by the provincial government and passed by a plebiscite.

A village may not impose a rate higher than twenty mills for general tax purposes. The tax rate in Surrey is at present 19.5 mills.

A district municipality must administer its own schools, must administer its own justice. The creation of a separate district municipality would necessitate division of assets and liabilities of schools, the election of a school board, the appointment of a secretary and staff. Further the appointment of a police force, building a police officer, jail, etc.

To organize as a district municipality would be an ambitious and expensive first step and could easily cause this area to be so mired in debt that it would be years catching up. To organize as a village would be a feasible and simple first step which would be self sustaining from the start with revenues as they exist at this time.

Why should we incorporate at all? Why should we not remain as we are as part of Surrey?

White Rock with its population of approximately 3,500 people in a small area is an urban problem. Our problem is that of a group of people with homes on a small plot of land. The bulk of the rest of the municipality is an agricultural problem. The Municipality of Surrey is divided into five wards. Four of the five councillors represent a majority of the people directly or indirectly interested in agriculture. This results in inadequate interest being taken in our urban affairs here in White Rock. To sustain this contention I quote the situation here as far as fire pro-

tection is concerned.

I have correspondence from the B.C. Underwriters Association that states, quote, "present means are inadequate for the reasonable protection of the community. It is very necessary that early action be taken to establish improved conditions as to water supply and protection facilities generally." end quote.

White Rock is provided with nine hydrants, twenty-seven stand pipes or a total of thirty-six outlets for fire protection.

Works By-law to ascertain what Works by-law to ascertain what provision has been made, to supply us with protection. Quote, "The Company shall construct, equip, install, maintain and operate within the area described in paragraph 1 hereof at such points within the said area to which the mains of the Company have been extended for fire purposes such hydrants as may be designated by the Council of the Corporation, such hydrants shall have a capacity of not less than two inches and shall be connected with a two inch or larger main." end quote.

The Council delegates advisory responsibilities to a local fire committee. Has this fire committee or the Municipal Council recommended provision of additional fire hydrants, or of additional water supply? Mr. Frank publicly stated that he was not aware of and that in his opinion the other members of the Council were also unaware of the contents of this Water Works agreement.

Bryce Brown's contribution at General Meeting that "these fellows don't know what they're talking about" apparently conveyed more truth than he was aware of. Of this lack of awareness of vital local conditions is the direct result of government by other men who reside in other places and are interested in other things.

To correct a distortion of the facts by Councillor Frank that I criticized the Council for failing to tax the Water Works, I submit the following.

Under the District Municipal Act Water mains can not be taxed. Therefore at present the White Rock Water Works pay taxes on their property alone—or by the financial statement of 1943, property taxes, licences and fees were \$377.42.

Now I quote from the Village Municipalities Act, "The pipe-lines of any water Co. that they serve connections on a public highway shall be deemed to be land and shall be assessed as such at the rate of forty cents per running foot."

This would mean an additional tax revenue for the village of an estimated \$1,500 to \$2,000. Mr. Frank's suggestion that I read the Municipal Act, I counter the suggestion that he peruse the Water Works By-law. And while on the subject of recommending reading material to one another, may I suggest that either read the Public Utilities Act, or Frank read the would find the same little interesting and informative.

It has also been suggested that until the war is over, mainly on the contention that not available at present. This is wholly untrue. One enquiry from one firm in Vancouver re-

Record Sale By Jun. Red Cross

Holidays are here and everyone in our school feel ready to enjoy them, and especially so for on Friday last we held a bazaar to raise funds for the Junior Red Cross. It is the one event of the year for this purpose. The many varied and useful articles on display were made by the pupils in class under teacher supervision, and at home aided by their parents.

And are they feeling proud? The sum of \$23.44 has been sent to J. R. C. office for three funds: the War Nurseries in Britain; the J. R. C. National War Fund; and the Crippled Children's Fund.

In opening the bazaar, Mrs. K. B. Woodward spoke of some of the work accomplished by the Junior Red Cross in the past year in aid of people of war-torn countries, including Britain, Greece, Poland, Russia and India. She was presented with a small gift by little Donna Green.

Both pupils and staff feel very proud of our district of White Rock for its generous support and appreciate very much the donations and work given by parents and friends towards the sale.

All classes have paid their enrolment fee for the year and magazine subscriptions have increased. So we are indeed ready for a holiday.

COMMENTS ON SCHOOL CONCERN

Is it permissible to wonder why there need be any school Tax, the school could be self supporting. The collection of hats, Shades of "Breakfast at Sandis", might one apologetically suggest doffing them.

Are we, too much of a distraction, in a school context?

The gentleman who gave the opening address might get tips in eloquence from angostones, the Referee in the Boxing Match, or the pretty fair haired Hostess in the last play.

It was beyond all praise, much was beautiful, much was humorous and many and otherwise—teachers, children, and don't forget MOTHERS, and all others, including the new curtain, put on a fine show, and the now famous White Rock Players have a virgin patch of excellent material to cultivate.

IRREV.

CONTRIBUTION

To the who, in last week's issue of this paper, was an account over the temperature of the Presbyterian church heater, he or she, may be relieved to know that there really was a fire in the heater.

Also the five ladies were sitting around said heater trying to keep themselves warm (and that was no imagination) while waiting for the public to call for their ration books. I wonder if there wasn't an inkling just behind the question. As this was voluntary work for all five ladies, the least we could expect was to be comfortable while we did our best to serve the public. The four ladies assisting me will rest that they were only doing their duty.

Homemakers' Corner

"Time doth swiftly, sweetly glide, When there's love at home."

Dear Homemakers:

Yesterday a neighbour called at our house and the conversation turned to Easter. She had brought her children with her and we asked them if they liked the Easter holiday, and why? The answer to the first question was a unanimous "Yes", but the second brought a variety of responses. One little boy liked Easter because he received Easter eggs; his small sister because of the "sweet little bunnies" you saw around at that time; and teen-aged Jane acknowledged that she looked forward to it because of the new hat and coat she hoped to acquire. When they went out to play, their mother confided in us that she didn't believe in all the fuss and preaching about Easter and Recreation and Immortality. As a matter of fact, she didn't take anything too seriously and believed only in what she could see and understand.

When evening came and this homemaker left us, we thought about what she had said. And yet, probably the first thing she would have said, even anything, would be to turn the electric switch. And she would have perfect faith that darkness would disappear and a cheerful light take its place. But neither she nor the greatest of scientists the world has to offer can overcome the force of electricity. When you come to think of it, there is much we cannot explain, which we accept in faith. Men of science may assemble the elements which constitute a tree, but not one of them can actually produce life. And this gives life. And without that, of what avail is the rest.

Yes indeed, it is only the simplest things we can begin to understand. Important things like Mind, Memory, the power of Prayer, Life, and the Easter Spirit, are beyond our ability to comprehend. But to homemakers who believe in them, have faith in them, they are vital and certain.

And now homemakers, spring sunshine reminds us that it is time to make a Victory Garden, and few of us will have time to read or write a "Homemakers' corner". Therefore, until the autumn we will close with the usual signature —F. H. & C. They are not our initials, but rather a constant reminder that the important things in life are Faith, Hope and Charity (love); but the greatest of these is CHARITY.

EASTER

Easter to Christian nations is the time of the year when the birth of a new hope springs in the minds of men; we have been at war for over four years, and the end does not seem in sight yet, but the majority of people are hoping and on doubt praying that this year will see a greater star of hope on the horizon.

But, however we may long for this fulfilment, it really depends on ourselves how seriously we believe in the Christian way of life, with faith in the Almighty. Many there are who have given no thought or care about the beliefs of Christianity. Yet, a greater number of men at the fighting front are realizing that there is, and believing in a Supreme Being. To them life is more real, and they ponder on these things.

Should we not on the home front be equally conscious of a faith in a Supreme Being, and by so doing help to give them courage, faith and trust in the ultimate victory of the Allied Nations, and that the hope that they are fighting for will be realized, a better world for all mankind.

CELESTIAL COMRADES

Wing on O Comrades of the sky,
Your noble deeds perform.

Stout heart and steadfast actions,
Will bring you your reward.

Like Albatross, Gull and Petrel,
Winging through tempest and storm,

Daring the elements fierceness,
With nerves often shattered and torn.

Then reaching the anchorage safely,

You hear that one did not return.
Causing gloom all around, "twas my Buddy".

Sincere of all to be found,
Again we say, we cannot pay,

"We're only asked to lend."
Neither must we fail, in supporting to the end.

Buy Bonds is sure our slogan,
Buy Bonds and then some more.

There's nothing else that matters
till Victory is assured.

Theatre News

The Constant Nymph is showing at the Park for the beginning of the week. Leave your cares at home—glide swiftly into a land of sympathy and romance, where today is to-day and to-morrow is something not to worry about. A wholly delightful adventure into the realm of poetic imagination, where an affable child's loyalty blossoms into an inspiring love. With Joan Fontaine, Charles Boyer, Alexis Smith, Brenda Marshall and Dame May Whitty.

Also showing Mexican Spitfire's Blessed Event. It's the Mexican Spitfire's newest and funniest adventure. The Scream-sation of the Season. Lope and Leon in another merry mix-up now, gay, vigorous fun as the Mexican Spitfire and her "Uncle Matt" make the birth of a kitten a "Blessed Event". Starring Lupe Velez, Leon Errol, Hugh Beaumont and Aileen Carlyle.

The week end brings This Land is Mine. To the last heart, they defended their school. The story of a simple Schoolmaster, who taught history humbly and made history heroically. Meekly he met life's challenges—but magnificently—the challenge of death. Under tyranny, a heart of gold can change to steel. On the road to glory, he lived unsung, but when the hour struck, his actions wrote his hymn to heroism. Starring Charles Laughton, Maureen O'Hara, George Sanders and Una O'Connor.

Also showing Ridin' on a Rainbow, starring Gene Autry, Smiley Burnette, Mary Lee and Carol Adams in a super musical Western, bringing Law and Order with fist and bullet. Death in his tricker and dynamite in his fist.

SURREY COUNCIL

Communications received at the Council meeting on Monday included an estimate from A. E. Allen, White Rock, as to the amount of compensation in connection with putting road through the Hope property. This will be investigated and an attempt to come to some agreement with Mr. Allen.

Dr. Swinden sent in a claim for \$5, which he spent in getting his car out of the ditch at the corner of Buena Vista and the Johnson roads. The Council refused to accept responsibility for the accident.

George Cruickshank, M.P. advised that an announcement will be made within a few days regarding farm leave for the armed forces.

The Chairman, Provincial Civilian Protection Committee reported that shortly official information regarding grants for A.R.P. administrative expenses will be given.

The Inspector of Municipalities reported that the School Loan By-Law has been approved for submission to the Electors. A vote will be taken on April 22nd.

Tom Reid, M.P. also George Cruickshank, M.P. informed the Council that they expected to obtain information from the Government shortly as to the policy with regard to daylight saving.

Hard surfaced roads will be patched as soon as possible, according to report of the engineer. No statement yet as to amount of oil possible to obtain this year.

The question of care of parks was discussed, but laid over for a later meeting.

Estimates for 1944 will be discussed at a special meeting of the Council on Wednesday evening, April 15th, at 7:30 p.m.

Any one of a number of things may prevent people who change their residence from having telephone service these days—even though there's a telephone already in place.

For example there may be no line from house to telephone pole; or there may not be enough central office equipment. There are many links in the chain, and one missing link means no telephone service.

War-time restrictions prevent additions to telephone equipment because materials and the personnel and machines of manufacturers are needed to fill war orders.

"WANT A RIDE?"

Considerate passengers hail their bus as it approaches so the driver knows definitely he is expected to stop. People standing on street corners may be waiting for a street car, a friend, a different bus—or they may be "just standing on a street corner."

Hail your bus with a definite signal. It prevents confusion, makes for speedier service, safer bus journey. It's all part of wartime co-operation to ease the strain on transit facilities.

OCEAN PARK

The Crescent-Ocean Park Ladies Circle will hold a Curio Tea in Ocean Park hall on Wednesday afternoon, April 12th, when curios and antiques from over sixteen different countries will be on display. There will be a sale of home cooking also.

Don't forget the card party in the Legion hall next Monday at 8 p.m. or the afternoon tea and card party on Thursday, April 13th. The Women's Auxiliary to the Legion promise you a good time if you come. Bring your friends. The proceeds will be used to buy comforts for our fighting men.

PRaise FROM BRITAIN

pled that they could supply road machinery at once. In this connection one wonders if these defecitists have ever thought of the share which White Rock owns of the Surrey equipment or of the fact that the owner of the bulldozers frequently hired by Surrey resides in the suggested village incorporation area.

Another faction contend that in incorporating and further urbanizing White Rock it would lose its charm. These are they who wish a maintenance of the status quo. To these we say that either we must have evolution and progression or we will have revolution and retrogression.

To the complaint that the Public Meeting was not fairly conducted, I have only this to say: The poor lose have ever identified himself with some version of the expression "we yuz robbed". Democratic procedure does not satisfy some when it does not serve their pur-

In conclusion I wish to state that we have assets here in our beach, in anchorage for boats on the Campbell River, which if developed by the locality for the locality, could easily produce enough revenue to supplant all taxes that has been accomplished in other places and it could be done here. A village incorporation is a first step in that direction. It is a possible step and a desirable one. By our efforts let us insure that White Rock will progress.

Yours faithfully,
B. J. Lemieux.

LIBRARY NOTES

Your Victory Garden

April's here again, and it is time to get out the gardening tools once more. The Fraser Valley Union Library has a large collection of books on all types of gardening—vegetable growing, flower gardens, bulbs, lawns, shrubs, and so on. Just recently the Library has added several new books on vegetable gardening.

The Food Garden, by Edna Blair, gives practical advice for the amateur on the growth of many varieties of vegetables, herbs, and fruits. It is a large volume filled with step-by-step illustrations.

Grow Your Own Vegetables, by P. W. Dempsey, will be helpful to both amateur and experienced gardeners. It contains specific directions for raising different sorts of vegetables, as well as general chapters on soils, planting, storing and preparing vegetables.

25 Vegetables Anyone Can Grow, by A. B. Robbins, treats each vegetable separately, giving such information on growing, harvesting, storing and use.

Home Vegetable Gardening, by C. R. Nisley, is a handy manual with practical and up-to-date information on each of the more important vegetables. There are introductory chapters on planting, storing, pests, and diseases.

Vegetable Gardening in Color, by Foley and Melike, is a short convenient picture-encyclopedia, with clear and vivid illustrations. That's the book, **Gardening Without Blank**, debunks popular garden literature and seed catalogues. After warning the amateur of the hard work, and the drawbacks not usually mentioned, the author gives specific information on tools, pests, seeds, planning and cultivation.

Vegetables in the Garden and their Legends, by Vernon Quinn, is not a practical book, but its legends and plant-lore will be very inter-

esting to anyone who ever wonders about the history of our vegetables.

AT OTTAWA
by
TOM REID, M. P.

The week of adjournment before Easter the time was almost entirely devoted to discussions in connection with Munitions and Supply Department. Some important statements were made included in which was the information given that the Committee set-up on Rehabilitation dealing particularly with Housing in Canada had recommended a programme of not less than 100,000 new homes each year, every year for 10 years, or in other words one million new homes.

The Minister of National Revenue announced that postponement of Income Tax payments had been extended until August 31st although it will be necessary that

all Income Tax Returns be sent in before April 30th. No interest will be added between the period of extension, namely, from May 1st until August 31st.

The coal business of Canada was handled throughout the winter on an emergency basis, various subsidies had been granted. The Minister of Munitions and Supply, however, informed the House the payment of subsidies would be tapered off, and that a Commission would be set-up to enquire into the entire question of coal production and distribution, not only during wartime but taking the long range view after the War as well.

In answer to a question Mr. Howe told the House that 12,500 men are employed at present in making airplanes and that they have attained a high efficiency. Mr. Howe also told the House that a cargo plane was being made in Canada, which was looked upon as one of the best cargo planes in the

world.
The House adjourned on Friday to open again on April 17th, and with the return of the Minister of Finance to the House, it is expected that the Budget will be brought down shortly after that date.

So often now— NAMES MAKE SAD NEWS

● The names in this newspaper that interest you most are names of boys you know who are on active service . . . boys from this community. You used to read their names in school reports, in church sport year books, in news of the day. Now these names today in news from the fighting fronts. So often now these names make sad news. Let's do all we can to hasten the day when our newspapers can tell of happy things.

Yes, we can do something to hasten that glad day.

When we do this job we help to win victory sooner. We help to end the war sooner. And we do something to benefit ourselves.

The job that we are asked to do is to save our money and lend it to our country.

As each new fighting front is opened more money is needed. More people must be ready to furnish this money.

More Victory Bonds will be issued. More who have not bought Victory Bonds before must buy them. Those who have not must buy more. We are not asked to give out money asked to lend. We will have money for things we plan to do, after the war.

Dedicate yourself to this war effort . . . something you can do . . . one thing you must do. Your help is urgently needed.
